

OUR REAL ESTATE SERVICES

Owning or leasing commercial property brings with it not only many advantages but also numerous liabilities which constantly change with updates in legislation. There are many continuing day to day obligations which result from energy performance ratings, ownership or occupation. For example those in respect of asbestos management, disposal of waste, disability discrimination, fire and other health and safety issues, and the Hewitsons Commercial Property team pride themselves on the value we can add in these areas.

Commercial property is a highly competitive and dynamic business and we provide a fast and effective response, often managing the input of other professionals.

We take a proactive role in assisting on all types of property structures, maintaining simplicity where required but adopting more complex arrangements if circumstances dictate.

Our property solicitors have tremendous experience of negotiating the terms of commercial leases and licences for a diverse range of clients and in relation to industrial, retail and office uses. They can also provide you with advice on any ongoing stamp duty land tax obligations in respect of leases, particularly at the time of rent review and lease expiry.

We are also experienced in dealing with freehold purchases and disposals with or without commercial mortgages and are experienced in office developments and refurbishments, factories and warehouses, business letting and education projects.
